Highlights

Infinity Turbine LLC (Infinity) manufactures and offers waste heat to power generation equipment. The company manufactures turbines, turbine generator sets, and full systems generate power from waste heat. Its flagship product, organic rankine cycle (ORC) power turbine is used for waste heat power generation. ORC uses refrigerants as the working fluid which boil below 100 degree centigrade, and the pressurized vapor can then be expanded through a turbine to spin a generator. It offers CO2 turbine development platform for energy developers and educators. The company manufactures turbines for various applications. It also develops technologies to help developers build and sell their own brand. Infinity is headquartered at Madison, Wisconsin, the US.
