Mexico Anesthesia and Respiratory Procedures Outlook to 2025 - Anesthesia Procedures, Airway Management Procedures and Respiratory Procedures.

SUMMARY

GlobalData's new report, Mexico Anesthesia and Respiratory Procedures Outlook to 2025, provides key procedures data on the Mexico Anesthesia and Respiratory Procedures. The report provides procedure volumes within market segments - Airway Management Procedures, Anesthesia Procedures and Respiratory Procedures.

The data in the report is derived from dynamic market forecast models. GlobalData uses epidemiology based models to estimate and forecast the procedure volumes. The objective is to provide information that represents the most up-to-date data of the industry possible.

The epidemiology-based forecasting model makes use of epidemiology data gathered from research publications and primary interviews with physicians to establish the target patient population and treatment flow patterns for individual diseases and therapies. Using prevalence and incidence data and diagnosed and treated population, the epidemiology-based forecasting model arrives at the final numbers.

Extensive interviews are conducted with key opinion leaders (KOLs), physicians and industry experts to validate the procedure volumes.
