Highlights

New York Independent System Operator Inc (NYISO) is a not-for-profit organization that manages the bulk electricity grid of New York and administers the competitive wholesale markets in the state. It is responsible for conducting long-term planning for its electric power system and upgrading the technological infrastructure of the electricity distribution system to meet future requirements. NYISO manages the flow of the electricity generated to ensure the utilities receive electricity for meeting the demand. It also conducts and monitors competitive auctions for wholesale electricity to ensure that consumers receive power at low costs. NYISO is headquartered in Rensselaer, New York, the US.
