Abstracts

SYNOPSIS

Timetric's 'NGL Energy Partners LP: Company Profile and SWOT Analysis' contains in depth information and data about the company and its operations. The profile contains a company overview, key facts, major products and services, SWOT analysis, business description, company history, key competitors, financial analysis, mergers & acquisitions, recent developments, key employees, company locations and subsidiaries as well as employee biographies.

SUMMARY

This report is a crucial resource for industry executives and anyone looking to access key information about 'NGL Energy Partners LP'

The report utilizes a wide range of primary and secondary sources, which are analyzed and presented in a consistent and easily accessible format. Timetric strictly follows a standardized research methodology to ensure high levels of data quality and these characteristics guarantee a unique report.

SCOPE

Examines and identifies key information and issues about 'NGL Energy Partners LP' for business intelligence requirements.

Studies and presents the company's strengths, weaknesses, opportunities (growth potential) and threats (competition). Strategic and operational business

information is objectively reported.

The profile also contains information on business operations, company history, major products and services, key employees, and locations and subsidiaries.

REASONS TO BUY

Quickly enhance your understanding of 'NGL Energy Partners LP'

Gain insight into the marketplace and a better understanding of internal and external factors which could impact the industry.

Increase business/sales activities by understanding your competitors' businesses better.

Recognize potential partnerships and suppliers.

KEY HIGHLIGHTS

NGL Energy Partners LP (NGL) is a midstream energy company. It provides a wide range of services, including transportation, storage, blending, and marketing of crude oil, natural gas liquids, and refined products. The company purchases crude oil from various producers; and transports it to refineries or for resale at storage terminals, pipeline injection points, rail facilities, barge loading facilities, refineries, and other trade hubs. NGL transports crude oil by its trucks and trailers, railcars and leased railcars, and towboats and barges. It also provides services for the treatment and disposal of wastewater generated from crude oil and natural gas production; and disposal of solids such as tank bottoms and drilling fluids. The company sells its products to commercial and industrial end users, independent retailers, marketers, distributors, government entities, and other wholesalers of refined petroleum products across the US. NGL is headquartered in Tulsa, Oklahoma, the US.
