Highlights

Nissan Chemical Corp (Nissan Chemical) is a chemical company that develops, manufactures and sells display, semiconductor and inorganic materials; herbicides, insecticides and fungicides; and basic and high-purity chemicals. It conducts research and development (R&D) on custom manufacturing and process researching services for pharmaceutical ingredients and their intermediates from pre-clinical to commercial production stages. Nissan Chemical's R&D offerings include analytical method development, stability testing, impurity identification, metabolite synthesis and filing of drug master files. The company also provides transportation, landscaping, engineering and fertilizer solutions. It serves agriculture, electronics, information and electronics, pharmaceuticals, and other industries in Far East Asia, Europe, North America and China among others. Nissan Chemical is headquartered in Tokyo, Japan.
