Highlights

Norsk Hydro ASA (Hydro) is a global supplier of aluminum and an electricity producer. Its operations span the value chain, from bauxite extraction to the production of rolled and extruded aluminum products and building systems. Its portfolio of products include bauxite, alumina, extrusion ingots, foundry alloys, sheet and remelt ingots, wire rods, foil for technical applications, and strips and sheets for litho, renewable energy, packaging, transport, heat exchangers, distributors and industrial applications. The company also owns and operates hydro power plants. It generates electricity at these plants and trades electricity on the Nord Pool Spot power exchange. The company supplies electricity to the local communities. Its products cater to the automotive, transport, building and construction, electronics, general engineering, packaging, printing and solar industries. The company has operations in various countries in Europe, North America, Africa, and Asia-Pacific. It has primary metal production facilities in Canada, Australia, Brazil and Qatar. Hydro is headquartered in Oslo, Norway.
