Highlights

PGS ASA (PGS) is a marine geophysical company. The company provides a wide range of seismic and reservoir services including, data acquisition, imaging, interpretation, and field services. Its MultiClient data library provides seismic images and 3D data describing the subsurface beneath the ocean floor that enables oil and gas companies to find oil and gas reserves worldwide. The company acquires new MultiClient surveys by applying in-house imaging technologies. PGS operates through a network of offshore seismic vessels and offices located across the world. It has operational presence in Europe, North America, South America, Asia Pacific, the Middle East and Africa. PGS is headquartered in Oslo, Norway.
