Increase business/sales activities by understanding your competitors' businesses better.

Recognize potential partnerships and suppliers.

KEY HIGHLIGHTS

Proengin is a provider of chemical and biological warfare agents' detection systems. The company uses flame spectrometry technology to manufacture field usable chemical and biological detectors. It uses the same technology to develop alarm biological detector known as MAB. Its chemical detectors include AP2C, AP2Ce, TIMs or AP4C. The flame spectrometry technology is highly sensitive, fast response, simultaneously detects several chemical compounds and reliable. It designs, develops, manufactures and markets maintenance equipment and accessories including the portable test bench, the refilling bench, two radio modules, training kit and S4PE. Its major customers include the French Ministry of Defense, the Armed Forces, Civil Defense, Police Forces, Customs and First responders. PROENGIN is headquartered in Paris, France.
