Executive biographies – A brief summary of the executives' employment history.

Key operational heads – A list of personnel heading key departments/functions.

Important locations and subsidiaries – A list of key locations and subsidiaries of the company, including contact details.

Highlights

Sterlite Power Grid Ventures Limited (SPGVL) is an integrated power transmission developer and solutions provider. The company builds power transmission corridors that connect power generating regions with major load centers. It manufactures power conductors, power cables and optical ground wire (OPGW) cables. SPGVL offers power solutions such as designing, testing, manufacturing and master system integration (MIS). The company designs, finances, constructs and maintains transmission networks on a build-own-operate-maintain (BOOM) basis for projects secured from the central government through competitive bidding. It also uses aerial technologies such as LiDAR survey, helicrane and cable stringing using aerial technology for the execution of transmission projects. The company has four manufacturing facilities in Odisha, Uttarakhand and Dadra and Nagar Haveli. It has operational presence in India, China and Brazil. SPGVL is headquartered in New Delhi, India.
