## Abstracts

### SUMMARY

Strategic Defence Intelligence's 'Ultra Electronics Avalon Systems: Aerospace and Defense - Company Profile and SWOT Analysis' contains in depth information and data about the company and its operations. The profile contains a company overview, key facts, major products and services, SWOT analysis, business description, company history, recent developments as well as company locations and subsidiaries.

### KEY FINDINGS

This report is a crucial resource for industry executives and anyone looking to access key information about 'Ultra Electronics Avalon Systems'

The report utilizes a wide range of primary and secondary sources, which are analyzed and presented in a consistent and easily accessible format. Strategic Defence Intelligence strictly follows a standardized research methodology to ensure high levels of data quality and these characteristics guarantee a unique report.

### SYNOPSIS

Ultra Electronics Avalon Systems (Avalon Systems) designs, develops and manufactures electronic warfare sub-systems. The company's diversified product and service portfolio and strong parent company are the company's major strengths, where as limited scale of operations remains a major area of concern. In the future, government contract compliance, stringent regulations and changing technology could affect its business operations. However, positive outlook for submarine market, growing

global defense spending, and positive outlook for global airline industry are likely to offer growth opportunities to the company

This business intelligence report presents the key company information, essential to understanding industry challenges and competitors.

The SWOT analysis identifies the company's strengths, weaknesses, opportunities for growth and threats. The key competitors are dissected alongside the larger challenges that the industry is facing.

The company profile relays all current information about the business operations, including key employees, major products and services, company history, locations and subsidiaries alongside a supporting statement from the Chairman and Managing Director.

## **REASONS TO BUY**

Quickly enhance your understanding of 'Ultra Electronics Avalon Systems'

Gain insight into the marketplace and a better understanding of internal and external factors which could impact the industry.

Increase business/sales activities by understanding your competitors' businesses better.

Recognize potential partnerships and suppliers.

## **KEY HIGHLIGHTS**

Ultra Electronics Avalon Systems (Avalon Systems) designs, develops and manufactures electronic warfare sub-systems. The company's diversified product and service portfolio and strong parent company are the company's major strengths, where as limited scale of operations remains a major area of concern. In the future, government contract compliance, stringent regulations and changing technology could affect its business operations.
