Abstracts

According to our (Global Info Research) latest study, the global AI Ordering System for Restaurants market size was valued at US\$ 1572 million in 2025 and is forecast to a readjusted size of US\$ 2771 million by 2032 with a CAGR of 8.4% during review period.

AI Ordering System for Restaurants is a specialized intelligent service solution tailored for catering establishments, integrating speech recognition, natural language processing, computer vision, and cloud computing technologies to streamline and automate the entire dining ordering process. It supports diverse interaction modes such as voice commands, touchscreen operation, and visual scanning, enabling customers to independently complete menu browsing, dish customization (e.g., adjusting taste, avoiding allergens, or modifying portion sizes), order submission, and payment integration (with online payment platforms or in-store settlement methods) across scenarios including dine-in, self-service kiosks, and takeaway docking.

This report is a detailed and comprehensive analysis for global AI Ordering System for Restaurants market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global AI Ordering System for Restaurants market size and forecasts, in consumption

value (\$ Million), 2021-2032

Global AI Ordering System for Restaurants market size and forecasts by region and country, in consumption value (\$ Million), 2021-2032

Global AI Ordering System for Restaurants market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2021-2032

Global AI Ordering System for Restaurants market shares of main players, in revenue (\$ Million), 2021-2026

The Primary Objectives in This Report Are:

- To determine the size of the total market opportunity of global and key countries
- To assess the growth potential for AI Ordering System for Restaurants
- To forecast future growth in each product and end-use market
- To assess competitive factors affecting the marketplace

This report profiles key players in the global AI Ordering System for Restaurants market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include SoundHound, VoicePlug, Kea AI, ConverseNow, BiteBerry, ActiveMenus, Square AI, DeliverLogic, ContactSwing, Presto, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market segmentation

AI Ordering System for Restaurants market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Voice-Controlled Ordering

Scan-Code Ordering

Others

Market segment by Order Processing Capacity

High Concurrency (>300 Orders/Hour)

Medium Concurrency (100-300 Orders/Hour)

Basic Concurrency (

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Classification of AI Ordering System for Restaurants by Type

1.3.1 Overview: Global AI Ordering System for Restaurants Market Size by Type: 2021 Versus 2025 Versus 2032

1.3.2 Global AI Ordering System for Restaurants Consumption Value Market Share by Type in 2025

1.3.3 Voice-Controlled Ordering

1.3.4 Scan-Code Ordering

1.3.5 Others

1.4 Classification of AI Ordering System for Restaurants by Order Processing Capacity

1.4.1 Overview: Global AI Ordering System for Restaurants Market Size by Order Processing Capacity: 2021 Versus 2025 Versus 2032

1.4.2 Global AI Ordering System for Restaurants Consumption Value Market Share by Order Processing Capacity in 2025

1.4.3 High Concurrency (>300 Orders/Hour)

1.4.4 Medium Concurrency (100-300 Orders/Hour)

1.4.5 Basic Concurrency (
