Abstracts

Industrial Cartridge valve is a control valve which can control stopping and opening of liquid's circulating line. It generally components of valve core, valve cover, a spring and a sealing ring. According to the installation, it can be divided into two kinds, slip-in cartridge valve and screw-in cartridge valve.

These cartridge valves are a compact design that can be used in hydraulic manifold systems for many types of industrial and mobile machinery. These products are ideal for applications which require high flow rates and leak-free control.
