## Abstracts

'A kiosk is a small physical structure (often including a computer and a display screen) that displays information for people walking by. Kiosks are common near the entrances of shopping malls in North America where they provide shoppers with directions. Kiosks are also used at trade shows and professional conferences.?'

More sophisticated kiosks let users interact and include touch screens, sound, and motion video. A simple kiosk can be created using HTML pages and graphics, setting the type size large enough to attract people from a short distance, and removing the Web browser's tool bar so that the display screen is effectively in 'kiosk mode.' The presentation can be designed to simply loop through a series of pages or to allow user interaction and exploration. Having a separate printed sign that invites people to your home-made kiosk may help.'

Scope of the Report:

This report focuses on the Kiosk in China market, to split the market based on manufacturers, Regions (Province), type and application.

Market Segment by Manufacturers, this report covers

Glory Limited

Diebold

NCR Corporation

OKI

Hitachi

GRGBanking

Nautilus

Wincor Nixdorf

IBM Corporation
