Abstracts

Sclareolide is a sesquiterpene lactone Sclareolide: 95-97% product derived from various plant sources including *Salvia sclarea*, *Salvia yosgadensis*, and cigar tobacco. It is a close analog of sclareol, a plant antifungal compound. It is used as a fragrance in cosmetics and has been more recently marketed as a weight loss supplement, though there is no clinical evidence to support this effect.
