The Floating Seahorse is essentially a boat and a submarine without any propulsion designed and presented by Kleindienst Architects in The Dubai International Boat Show in March 2015. It is made of three levels, the first is underwater, the second on water level and the third one is an upper deck. An artificial coral reef is to be created below it, where, according to the architects, the endangered Arabic seahorse will find its home again and give people the chance to admire it in all its glory.

At present, only Kleindienst Group manufactures Floating Seahorse. Their Floating Seahorse is mainly used for the Heart Of Europe project in Dubai. In terms of type, there are two mainly types of Floating Seahorse, including Signature Edition Floating Seahorse and Tzar Edition Floating Seahorse.
