Abstracts

According to our latest research, the global Forex Trading Apps market size will reach USD 13870 million in 2031, growing at a CAGR of 10.1% over the analysis period.

The major currency pairs traded in the forex market are active, often volatile, event-driven, and, therefore, very vulnerable to business, political, and economic news that's announced throughout the regular 24-hour trading day. Nearly all forex brokers offer mobile applications. Some of the individual broker apps are so popular that traders who don't have accounts with the broker still use them. Other popular forex trading apps offer free and easy access to news, price quotes, and charting.
