Abstracts

According to our (Global Info Research) latest study, the global FRP Electrical Enclosures market size was valued at US\$ 366 million in 2025 and is forecast to a readjusted size of US\$ 544 million by 2032 with a CAGR of 6.0% during review period.

In 2025, global FRP Electrical Enclosure reached approximately 11178 K Units, with an average global market price of around 31.8 USD per K Units.

A FRP Electrical Enclosure is a protective housing made from fiberglass-reinforced polymer designed to contain and safeguard electrical and electronic equipment from environmental, mechanical, and chemical hazards. These enclosures are widely used in industrial, utility, infrastructure, and outdoor applications where corrosion resistance, electrical insulation, and low maintenance are critical requirements.

FRP Electrical Enclosures protect internal components such as circuit breakers, control panels, relays, power supplies, and communication devices against moisture, dust, chemicals, UV exposure, and physical impact, while also helping ensure operational safety and regulatory compliance. Compared with metal enclosures, fiberglass enclosures do not rust, offer inherent electrical insulation, and perform reliably in harsh or corrosive environments.

The upstream raw materials for FRP Electrical Enclosures mainly include glass fiber, synthetic resin, and functional additives. Typical upstream raw material suppliers include Owens Corning, Saint-Gobain, Jushi Group, and Taishan Fiberglas. Downstream applications are primarily in the State Grid and industrial power sectors. The single-line capacity and gross profit margin of FRP Electrical Enclosures are mainly

affected by molding processes, automation levels, and product positioning, exhibiting a pattern where process adapts to capacity and positioning determines gross profit. Mainstream automated production lines such as molding/SMC typically have a daily capacity of 1000-3000 units, with an annual capacity of 200,000-500,000 units. The industry average gross profit margin is 20%-30%.
