Abstracts

According to our (Global Info Research) latest study, the global Generative AI Business Services market size was valued at US\$ 2525 million in 2025 and is forecast to a readjusted size of US\$ 3701 million by 2032 with a CAGR of 5.6% during review period.

To address the efficiency bottlenecks, high innovation costs, and insufficient scalability faced by enterprises in content creation, idea generation, code development, and personalized interaction, generative AI commercial services have emerged. Since 2022, with the breakthrough advancements in large language models and diffusion models, this field has entered a period of explosive growth, rapidly moving from technological exploration to large-scale commercial applications. Currently, generative AI commercial services have developed into a multi-layered technical service system encompassing basic model API services, industry-specific vertical solutions, customized model fine-tuning, and full-process integration and deployment. It is widely applied in core business scenarios such as marketing, product design, education and training, media and entertainment, software engineering, and customer service, enabling unprecedented ways to unleash creative potential, automate and personalize content production, thereby significantly accelerating business innovation, optimizing operating costs, and creating new user experiences and value growth points.

This report is a detailed and comprehensive analysis for global Generative AI Business Services market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some

of the selected leaders for the year 2025, are provided.

Key Features:

Global Generative AI Business Services market size and forecasts, in consumption value (\$ Million), 2021-2032

Global Generative AI Business Services market size and forecasts by region and country, in consumption value (\$ Million), 2021-2032

Global Generative AI Business Services market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2021-2032

Global Generative AI Business Services market shares of main players, in revenue (\$ Million), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Generative AI Business Services

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Generative AI Business Services market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Accenture, IBM Consulting, Capgemini, Deloitte, TCS, Cognizant, Infosys, Wipro, Happiest Minds, HCLTech, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market segmentation

Generative AI Business Services market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.
