2-Piece DRD Cans are two-piece metal cans manufactured by the draw-and-redraw (DRD) process. In this structure, the can body and bottom are formed as one integral piece from metal sheet, and only the top end is added later and sealed by double seaming. In industrial practice, the metal sheet is first drawn into a cup shape and then redrawn to achieve the required final dimensions; compared with draw-and-wall-ironed cans, DRD cans are shaped mainly by redrawing rather than extensive wall ironing.
