Abstracts

According to our (Global Info Research) latest study, the global 4-Vinylbenzaldehyde market size was valued at US\$ 47.21 million in 2025 and is forecast to a readjusted size of US\$ 67.29 million by 2032 with a CAGR of 5.2% during review period.

In 2025, the global production of 4-vinylbenzaldehyde was approximately 740 tons, with an average selling price of about US\$62/kg. The scale of single-line production capacity varies depending on the production process and investment scale, with an average gross profit margin of approximately 15-25%. 4-vinylbenzaldehyde is an important organic intermediate, belonging to the class of aromatic aldehydes. Its structure contains both an aldehyde group and a vinyl group, and it is used in chemical synthesis to build complex molecules, particularly in the fields of pharmaceuticals, dyes, fragrances, new materials, and polymers. It is often prepared from raw materials such as p-methylbenzaldehyde.

The main upstream raw materials for 4-vinylbenzaldehyde are p-bromobenzaldehyde, vinyl Grignard reagent, or p-methylbenzaldehyde with halogenomethylation/oxidation reagents such as dichloromethyl methyl ether. Its downstream applications are highly focused on high-value-added industries, mainly including the pharmaceutical field (as a key intermediate in the synthesis of targeted anticancer drugs such as tyrosine kinase inhibitors), the high-end display materials industry (used in the manufacture of liquid crystal monomers, especially TFT-LCD display materials), and the special polymer materials field (as a functional monomer or crosslinking agent, used in the preparation of high-performance materials such as ion exchange resins and photosensitive polymers).

This report is a detailed and comprehensive analysis for global 4-Vinylbenzaldehyde market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global 4-Vinylbenzaldehyde market size and forecasts, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/kg), 2021-2032

Global 4-Vinylbenzaldehyde market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/kg), 2021-2032

Global 4-Vinylbenzaldehyde market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/kg), 2021-2032

Global 4-Vinylbenzaldehyde market shares of main players, shipments in revenue (\$ Million), sales quantity (Tons), and ASP (US\$/kg), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for 4-Vinylbenzaldehyde

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global 4-Vinylbenzaldehyde market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include American Elements, Shandong Xingshun New Material, Jlight Chemicals, Hairui Chemical, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

4-Vinylbenzaldehyde market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global 4-Vinylbenzaldehyde Consumption Value by Type: 2021 Versus 2025 Versus 2032

1.3.2 Industrial Grade

1.3.3 Pharmaceutical Grade

1.4 Market Analysis by Purity

1.4.1 Overview: Global 4-Vinylbenzaldehyde Consumption Value by Purity: 2021 Versus 2025 Versus 2032

1.4.2 Purity
