Abstracts

According to our (Global Info Research) latest study, the global 4-Vinylphenyl Acetate market size was valued at US\$ 52.76 million in 2025 and is forecast to a readjusted size of US\$ 89.06 million by 2032 with a CAGR of 7.6% during review period.

4-Vinylphenyl Acetate (CAS: 2628-16-2) is an aromatic functional vinyl monomer. Its structure consists of a polymerizable vinyl group and an acetate-protected phenolic group attached at the para positions of a benzene ring.

The compound can undergo free-radical homopolymerization or copolymerization with other vinyl monomers. After polymerization, the acetate groups may be hydrolyzed to generate phenolic hydroxyl groups, producing polyhydroxystyrene or related hydroxyl-functional polymers. It is therefore primarily used as a protected hydroxystyrene monomer for photoresist polymers, electronic materials, ion-exchange resins and other specialty functional polymers. The products are generally supplied as inhibitor-stabilized liquids because the vinyl group is susceptible to unintended polymerization during storage and transportation.

In 2025, global sales of 4-Vinylphenyl Acetate reached approximately 503 tons, with an average global market price of around US\$ 102/kg. As a niche chemical, its global production capacity is low, and its gross profit margin is approximately 20%-40%.

This report is a detailed and comprehensive analysis for global 4-Vinylphenyl Acetate market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that

contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global 4-Vinylphenyl Acetate market size and forecasts, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/kg), 2021-2032

Global 4-Vinylphenyl Acetate market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/kg), 2021-2032

Global 4-Vinylphenyl Acetate market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/kg), 2021-2032

Global 4-Vinylphenyl Acetate market shares of main players, shipments in revenue (\$ Million), sales quantity (Tons), and ASP (US\$/kg), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for 4-Vinylphenyl Acetate

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global 4-Vinylphenyl Acetate market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include GM Chemical, UniVOOK Chemical, Hunan Huateng Pharmaceutical, East Star Biotech, Hefei Heyu Chemical New Materials, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

4-Vinylphenyl Acetate market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global 4-Vinylphenyl Acetate Consumption Value by Type: 2021
Versus 2025 Versus 2032

1.3.2 Industrial Grade

1.3.3 Electronic Grade

1.4 Market Analysis by Purity

1.4.1 Overview: Global 4-Vinylphenyl Acetate Consumption Value by Purity: 2021
Versus 2025 Versus 2032

1.4.2 Purity
