## Abstracts

According to our (Global Info Research) latest study, the global 5-HT<sub>1B/1D</sub> Receptor Agonists market size was valued at US\$ 1292 million in 2025 and is forecast to a readjusted size of US\$ 1663 million by 2032 with a CAGR of 3.8% during review period.

5-HT<sub>1B/1D</sub> Receptor Agonists are a class of acute antimigraine agents mainly represented by triptans. They act on cranial vascular and trigeminal pathways to relieve migraine pain and associated symptoms during acute attacks. Major commercial molecules include sumatriptan, zolmitriptan, rizatriptan, naratriptan, eletriptan, almotriptan, and frovatriptan. These agents are not intended for long-term preventive treatment, but are mainly used for symptom control during acute migraine episodes. Commercial dosage forms include tablets, orally disintegrating tablets, nasal sprays, and subcutaneous injections, with oral dosage forms remaining dominant. On a finished-dose basis, the upstream supply chain mainly includes 5-HT<sub>1B/1D</sub> receptor agonist APIs, excipients for oral, nasal, and injectable formulations, delivery devices, packaging materials, and finished-dose manufacturing services. Downstream customers mainly include originator and generic marketing authorization holders, hospital pharmacies, retail pharmacy chains, e-prescription fulfillment platforms, pharmaceutical wholesalers, as well as neurology clinics, headache centers, and emergency-care channels. Based on the mature role of this class in acute migraine treatment, the continued dominance of oral dosage forms in the global product mix, and the variation in unit value across formulations, global nominal capacity of finished 5-HT<sub>1B/1D</sub> Receptor Agonists is estimated at about 615 million doses in 2025, with actual sales volume of about 468 million doses and an average ex-factory price of around US\$2.68 per dose. As this class has already entered a mature market stage, while nasal sprays and injectable products usually carry higher unit value than oral formulations, the overall industry gross

margin is typically estimated at 42%-58%.
