Scope of the Report:

This report focuses on the 5-Hydroxytryptophan (5-HTP) in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. North America was the largest consumer for 5-HTP over the past five years followed by Europe and Asia Pacific. Asia Pacific is expected to witness high growth in terms of consumption and production of 5-HTP owing to emergence of numerous small and medium sized manufacturers over the forecast period. Furthermore, changing lifestyle has led to huge capacity expansions in Asia Pacific. Technological advancements in emerging economies such as India and China have potential growth opportunities; although unfavorable drug regulations and lack of awareness could pose challenges to the market demand. Increasing applications in pharmaceuticals, food & beverage and dietary supplements are estimated to augment market growth over the next six years. Dietary supplements are expected to witness swift growth owing to increasing demand for artificial body nutrients. Increasing consumption of 5-HTP for treatment of insomnia, anxiety, depression, fibromyalgia, migraine, binge eating associated with obesity, attention deficit-hyperactivity disorder (ADHD), premenstrual syndrome (PMS), premenstrual dysphoric disorder (PMDD), Parkinson's disease and seizure disorder is anticipated to have positive impact on the market share.
