Abstracts

According to our (Global Info Research) latest study, the global Academic Translation market size was valued at US\$ 10253 million in 2025 and is forecast to a readjusted size of US\$ 16493 million by 2032 with a CAGR of 7.0% during review period.

Academic translation refers to the accurate, professional, and academically compliant conversion of high-knowledge-density content such as research papers, academic journal articles, research reports, patent documents, textbooks, dissertations, and conference materials between different languages. Its core involves not only language conversion but also terminology standardization, restoration of subject-specific context, preservation of logical structure, and optimization of expression to conform to the target journal or educational system. Therefore, it is a highly specialized sub-field of language services, typically requiring translators with specific subject backgrounds or a combination of AI and human proofreading.

The academic translation industry is expected to experience steady growth, primarily driven by the increasing internationalization of global scientific research, cross-border academic collaborations, and the continued improvement in research output from non-English speaking countries. With increasing research investment in China, India, Europe, and East Asian countries, a large number of research results need to be published in international English journals or disseminated across languages, significantly increasing the demand for professional translation. While AI-assisted translation technology is improving efficiency, high-quality academic content still heavily relies on human polishing and proofreading by domain experts, making a hybrid 'machine + expert' model the mainstream development direction for the industry. In the future, the industry will further evolve towards specialization, subject-specific

specialization, and platform-based services.

This report is a detailed and comprehensive analysis for global Academic Translation market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Academic Translation market size and forecasts, in consumption value (\$ Million), 2021-2032

Global Academic Translation market size and forecasts by region and country, in consumption value (\$ Million), 2021-2032

Global Academic Translation market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2021-2032

Global Academic Translation market shares of main players, in revenue (\$ Million), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Academic Translation

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Academic Translation market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Orion Translations, ACS Authoring Services, The Translation

Company, LatinoBridge, DA Languages, Mars Translation Services, Enago, Renaissance Translations, Absolute Translations, LingPerfect, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.
