Abstracts

According to our (Global Info Research) latest study, the global Active Patch Antenna market size was valued at US\$ 422 million in 2025 and is forecast to a readjusted size of US\$ 534 million by 2032 with a CAGR of 3.5% during review period.

In 2025, global Active Patch Antenna production reached approximately 41,000 k units?with an average global market price of around US\$ 10 per unit, and a gross profit margin of approximately 20%-40%. Active Patch Antennas are compact antenna modules that combine a patch antenna element with active electronic components such as low-noise amplifiers, filters, cables, connectors, and shielding structures. They are mainly used to receive and enhance GNSS, GPS, BeiDou, Galileo, GLONASS, Wi-Fi, satellite communication, or other wireless signals in compact devices. Compared with passive patch antennas, active patch antennas provide stronger signal gain, better sensitivity, improved noise performance, and easier integration in devices with limited antenna space. They are widely used in automotive navigation, fleet tracking, drones, IoT terminals, asset tracking, precision positioning, smart devices, timing systems, and industrial communication equipment. The industrial chain of Active Patch Antennas includes upstream ceramic substrates, dielectric materials, RF chips, low-noise amplifiers, filters, coaxial cables, connectors, shielding covers, PCBs, adhesives, housings, radomes, and testing equipment. The midstream includes antenna design, RF circuit integration, patch element manufacturing, LNA matching, impedance tuning, cable assembly, environmental sealing, gain testing, noise figure testing, quality control, and certification. Downstream applications include automotive electronics, GNSS receivers, drones, asset trackers, IoT devices, surveying equipment, telecom terminals, marine navigation, smart agriculture, and industrial positioning systems. Related services include customization, tuning, testing, certification support, technical

integration, replacement parts, and after-sales support.
