Acupressure Mat is a wellness and self-care product designed based on traditional acupressure principles. It typically consists of a soft mat base covered with numerous plastic acupressure spikes, which apply pressure to body points and muscle areas through the user's body weight. The product helps promote blood circulation, relieve muscle tension, and improve relaxation. Acupressure Mats are widely used in home healthcare, yoga relaxation, sports recovery, and daily massage applications.

The upstream of the Acupressure Mat industry chain mainly includes suppliers of EVA, PU foam, textile fabrics, plastic acupressure spike materials, and adhesives. The midstream consists of Acupressure Mat manufacturers, which produce different types of massage mats through processes such as molding, hot pressing, sewing, and assembly. The downstream distribution channels mainly include online e-commerce platforms, health product retailers, and yoga and fitness product channels, with final applications in home healthcare, sports recovery, yoga training, and personal relaxation scenarios.
