Abstracts

The global Adult Diapers market size is expected to reach \$ 15370 million by 2032, rising at a market growth of 4.4% CAGR during the forecast period (2026-2032).

An Adult Diapers (or adult nappy) is a diaper made to be worn by a person with a body larger than that of an infant or toddler. Diapers can be necessary for adults with various conditions, such as incontinence, mobility impairment, severe diarrhea or dementia. Adult Diapers are made in various forms, including those resembling traditional child diapers, underpants, and pads resembling sanitary napkins (known as incontinence pads).

Kimberly Clark, Essity, Unicharm, Attindas, Hartmann, First Quality Enterprise, P&G and Kao etc. are the key producers in the global adult care diaper market. Top 5 took up about 1/2 of the global market. Due to the low entry threshold of the industry, there are many small and medium-sized production enterprises in the market, but they are usually smaller in scale and sold locally.

Market Drivers

Aging Population: The rising elderly population, particularly in countries like Japan, China, the U.S., and Europe, is a major driver.

Older adults are more prone to incontinence issues, increasing demand for adult diapers.

Increasing Prevalence of Chronic Diseases: Conditions like diabetes, Parkinson's, Alzheimer's, and urinary incontinence contribute to higher usage of adult diapers. Post-

surgical and bedridden patients also require absorbent hygiene products.

This report studies the global Adult Diapers production, demand, key manufacturers, and key regions.
