Agave Inulin Powder is a soluble dietary fiber extracted from agave plants and processed into powder form. It is mainly used as a prebiotic ingredient, fiber supplement, sugar-reduction ingredient, and functional food additive.

The industrial chain covers upstream agave cultivation, extraction aids, filtration materials, drying equipment, and packaging; midstream extraction, purification, concentration, spray drying, blending, testing, and packing; downstream functional foods, beverages, dietary supplements, bakery products, and health food channels.

The rising demand for functional dietary supplements and clean-label food ingredients fuels the growth of agave inulin powder. As a natural prebiotic source, it supports intestinal health and improves food texture, gaining wide usage in beverage and dairy formulations. Process refinement and stable ingredient standardization keep expanding its commercial application value.
