Abstracts

According to our (Global Info Research) latest study, the global Aging in Bathroom Products market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

The increasing developments in the construction sector of residential buildings, hotels, restaurants, and airports, coupled with the growing need for convenient bathrooms, present lucrative opportunities for players in the aging bathroom products industry. In addition, the rising prominence of multi-functionality bathroom fixtures with aesthetic appeal is boosting the demand for these products.

Most aged individuals decide to stay at home as the overall population ages and delays living in assisted living facilities as long as possible. However, to ensure safety, home improvements are essential for aged individuals. This is particularly true for bathroom designs for older people with chronic diseases or disabilities. 90% of elderly individuals say that they intend to stay in their homes for at least another ten years, according to the recent United States Aging Survey of 2022.

The rising cases of injuries, surgeries, and disabilities among the elderly increase the risk of slips and falls in the bathroom without assistance. Many older persons require help using the restroom but may feel self-conscious while asking for assistance. However, help in the bathroom is essential to prevent an aged adult from slipping, falling, or suffering any other injuries on the slippery and harsh surfaces of a bathroom. A restroom is another dangerous place for the elderly. Wet bathroom flooring creates a dangerous environment where falls are likely to happen. Even worse, senior citizens

often suffer from bowel diseases, necessitating a rush to use the restroom, and falls frequently occur due to this.

This report is a detailed and comprehensive analysis for global Aging in Bathroom Products market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2023, are provided.

Key Features:

Global Aging in Bathroom Products market size and forecasts, in consumption value (\$ Million), 2018-2029

Global Aging in Bathroom Products market size and forecasts by region and country, in consumption value (\$ Million), 2018-2029

Global Aging in Bathroom Products market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2018-2029

Global Aging in Bathroom Products market shares of main players, in revenue (\$ Million), 2018-2023

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Aging in Bathroom Products

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Aging in Bathroom Products market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Genteel Homecare Products Co., Ltd., IgnoxLabs

Pvt Ltd. (Emoha Elder Care), Jianlian Homecare Products Co., Ltd., Jinan Hengsheng New Building Materials Co., Ltd. and Old is Gold Store, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals, COVID-19 and Russia-Ukraine War Influence.

Market segmentation

Aging in Bathroom Products market is split by Type and by Application. For the period 2018-2029, the growth among segments provide accurate calculations and forecasts for consumption value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.
