## Abstracts

The global AI Marketing Tool market size is expected to reach \$ million by 2029, rising at a market growth of % CAGR during the forecast period (2023-2029).

An AI marketing tool is a software or platform that uses artificial intelligence technology to create automated decisions. These decisions are based on collected data that's analyzed and interpreted together with the market trend. The goal is to develop a marketing strategy that anticipates the buyer's next move.

All of this is done in real time without the intervention of an actual human. It's this capacity to make automated decisions at lightning speed that makes AI marketing tools for business so formidable.

This report studies the global AI Marketing Tool demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for AI Marketing Tool, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2022 as the base year.
