Abstracts

The global AI Music Generation Service market size is expected to reach $ 16550 million by 2029, rising at a market growth of 9.9% CAGR during the forecast period (2023-2029).

AI music generation service is a type of music creation and generation tool based on artificial intelligence technology. These services leverage machine learning algorithms, deep neural networks and natural language processing technologies to automatically create music, compose tunes, generate lyrics, arrangements, sound design and sound effects. AI music generation services aim to improve the efficiency of music creation, provide creators with inspiration, expand the diversity of music styles, and provide personalized and innovative music for different fields. As AI music generation grows, music copyright and legal issues will become an important area, requiring more laws, regulations and specifications. Overall, the future development trends of AI music generation services will include higher creativity, wider application areas and more interactions with human creators. This will bring more possibilities and opportunities to the music industry and music lovers, while also sparking discussions about music creation, copyright and ethics.

This report studies the global AI Music Generation Service demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for AI Music Generation Service, and provides market size (US$ million) and Year-over-Year (YoY) growth, considering 2022 as the base year. This report explores demand trends and competition, as well as details the characteristics of AI Music Generation Service that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global AI Music Generation Service total market, 2018-2029, (USD Million)

Global AI Music Generation Service total market by region & country, CAGR, 2018-2029, (USD Million)

U.S. VS China: AI Music Generation Service total market, key domestic companies and share, (USD Million)

Global AI Music Generation Service revenue by player and market share 2018-2023, (USD Million)

Global AI Music Generation Service total market by Type, CAGR, 2018-2029, (USD Million)

Global AI Music Generation Service total market by Application, CAGR, 2018-2029, (USD Million).

This reports profiles major players in the global AI Music Generation Service market based on the following parameters – company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include OpenAI, Amper Music, Aiva, Jukedeck, Mubert, Endlesss, SE Studio, Databaker and DeepMusic, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World AI Music Generation Service market.

Detailed Segmentation:

Each section contains quantitative market data including market by value (US$ Millions), by player, by regions, by Type, and by Application. Data is given for the years 2018-2029 by year with 2022 as the base year, 2023 as the estimate year, and 2024-2029 as the forecast year.
