## Abstracts

The global AI-powered Drone Inspection Software market size is expected to reach \$ 3745 million by 2032, rising at a market growth of 5.8% CAGR during the forecast period (2026-2032).

In 2025, global AI-powered Drone Inspection Software industry-average gross margin of approximately 30%.

AI-powered Drone Inspection Software refers to software platforms that ingest imagery, video, and multi-sensor data captured by drones and apply computer vision and machine-learning algorithms to automatically detect defects, assess asset conditions, and generate inspection reports. Typical modules cover mission and flight-path planning, drone and payload (RGB/thermal/LiDAR etc.) management, data capture and synchronization, cloud- or edge-based AI analytics, 3D reconstruction and mapping, alerting and reporting, plus integrations with enterprise asset management, maintenance (EAM/CMMS), or digital-twin systems. These solutions support inspection of power lines, wind turbines, solar plants, telecom towers, pipelines, industrial sites, and building structures. Compared with manual inspection, the core value of AI drone inspection software is reducing field risk and labor cost, improving defect-detection accuracy and data objectivity, and building a traceable, quantifiable asset-health record.

This report studies the global AI-powered Drone Inspection Software demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for AI-powered Drone Inspection Software, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2025 as the base year. This report explores demand trends

and competition, as well as details the characteristics of AI-powered Drone Inspection Software that contribute to its increasing demand across many markets.

### **Highlights and key features of the study**

Global AI-powered Drone Inspection Software total market, 2021-2032, (USD Million)

Global AI-powered Drone Inspection Software total market by region & country, CAGR, 2021-2032, (USD Million)

U.S. VS China: AI-powered Drone Inspection Software total market, key domestic companies, and share, (USD Million)

Global AI-powered Drone Inspection Software revenue by player, revenue and market share 2021-2026, (USD Million)

Global AI-powered Drone Inspection Software total market by Type, CAGR, 2021-2032, (USD Million)

Global AI-powered Drone Inspection Software total market by Application, CAGR, 2021-2032, (USD Million)

This report profiles major players in the global AI-powered Drone Inspection Software market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include DroneDeploy, Flyability, Skycatch, Pix4D, Autel Robotics, Drone Volt, Tonner Drones, vHive, Agisoft Metashape, Hammer Missions, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the world AI-powered Drone Inspection Software market

### **Detailed Segmentation:**

Each section contains quantitative market data including market by value (US\$ Millions), by player, by regions, by Type, and by Application. Data is given for the years

2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.

#### Global AI-powered Drone Inspection Software Market, By Region:

United States

China

Europe

Japan

South Korea

ASEAN

India

Rest of World

#### Global AI-powered Drone Inspection Software Market, Segmentation by Type:

Cloud-base

On-premises

#### Global AI-powered Drone Inspection Software Market, Segmentation by Workflow Coverage:

Mission-planning & Flight-control-centric Software

Data-management & Analytics-centric Software

End-to-end Inspection Management Platforms

## Global AI-powered Drone Inspection Software Market, Segmentation by Application:

Telecom Inspection

Structural Inspection

Infrastructure Inspection

Others

## Companies Profiled:

DroneDeploy

Flyability

Skycatch

Pix4D

Autel Robotics

Drone Volt

Tonner Drones

vHive

Agisoft Metashape

Hammer Missions

Twinsity

Qii.AI

Skyline Software Systems

Skydio

Property Inspect

Scopito ApS

Flybotix

AUAV

DJI Technology

Skysys

Walkera

FlytBase

Fuya Intelligent

Maicro

#### Key Questions Answered

1. How big is the global AI-powered Drone Inspection Software market?
2. What is the demand of the global AI-powered Drone Inspection Software market?
3. What is the year over year growth of the global AI-powered Drone Inspection Software market?
4. What is the total value of the global AI-powered Drone Inspection Software market?
5. Who are the Major Players in the global AI-powered Drone Inspection Software market?
6. What are the growth factors driving the market demand?

## I would like to order

Product name: Global AI-powered Drone Inspection Software Supply, Demand and Key Producers, 2026-2032

Product link: <https://marketpublishers.com/r/GAA0D70F4313EN.html>

Price: US\$ 4,480.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/GAA0D70F4313EN.html>
