Abstracts

According to our (Global Info Research) latest study, the global AI Short Comic Drama market size was valued at US$ 585 million in 2025 and is forecast to a readjusted size of US$ 4039 million by 2032 with a CAGR of 31.2% during review period.

AI Short Comic Drama refers to a new form of digital content production that applies artificial intelligence technologies, including generative AI models, large language models (LLMs), image generation models (AIGC), text-to-speech (TTS), digital human technologies, automated storyboarding, intelligent animation rendering and video generation algorithms, to automate or semi-automate the creation process of short-form animated dramas. The market primarily covers AI-assisted or AI-driven production workflows across script development, character design, scene generation, animation production, voice generation, editing, post-production and content distribution. AI Short Comic Drama is characterized by short episodic formats, rapid production cycles, mobile-first consumption and scalable IP development capabilities, serving digital entertainment, online literature adaptation, commercial marketing, education and global digital content distribution markets.

Key Findings

AI Short Comic Drama production is shifting from traditional manual animation workflows toward AI-driven content generation pipelines

AI semi-automatic production currently represents the mainstream commercialization model due to higher quality control capability

+357 96 030922
info@marketpublishers.com

2D AI comic drama maintains broad adoption because of lower production complexity and faster content iteration

Mobile entertainment platforms represent the primary commercialization channel for AI-generated short dramas

China has become one of the most active markets for AI-driven digital content innovation

Market Trends

The AI Short Comic Drama industry is evolving rapidly with the integration of generative artificial intelligence, creative automation tools and digital content platforms. The production process is moving from isolated AI-assisted tools toward integrated end-to-end intelligent creation systems covering script generation, visual design, animation rendering, voice synthesis and distribution optimization. Compared with traditional animation production, AI technology significantly reduces dependence on large production teams and shortens content development cycles, enabling smaller studios and individual creators to produce serialized animated stories at lower costs. Future development will focus on improving visual consistency, character continuity, emotional expression, AI-generated narrative quality and real-time interactive content capabilities. The combination of AI Short Comic Drama with online literature IP, virtual characters, social media platforms and overseas digital entertainment ecosystems is expected to expand commercial applications and accelerate global content localization.

Market Dynamics

Drivers

The growth of AI Short Comic Drama is mainly driven by increasing demand for short-form digital entertainment, rapid expansion of mobile video consumption and continuous improvement of generative AI technologies. The shortage of traditional animation production capacity, rising labor costs and increasing demand for diversified content supply have encouraged platforms and creators to adopt AI-based production methods. In addition, the large volume of online literature, comics and intellectual property resources provides abundant content sources for AI adaptation, supporting the

+357 96 030922
info@marketpublishers.com

development of scalable AI-generated drama ecosystems.Restraints

The market faces limitations related to AI-generated content quality, copyright ownership, intellectual property protection and technological maturity. Current AI generation systems still experience challenges in maintaining character consistency, long-term storytelling coherence, artistic style stability and complex emotional expression. In addition, uncertainty regarding AI-generated content regulation, training data ownership and platform compliance requirements may increase operational risks for industry participants.

Opportunities

AI Short Comic Drama presents significant opportunities through the integration of generative AI with digital entertainment, IP commercialization and international content distribution. Emerging markets with rapidly growing mobile video users provide expansion opportunities for AI-generated entertainment products. AI localization technologies, including multilingual voice generation, automated translation and cultural adaptation, can improve overseas distribution efficiency. The combination of AI production platforms with online literature companies, animation studios, advertising agencies and entertainment platforms is expected to create new business models.

Challenges

The industry faces challenges including increasing competition among AI content platforms, rising requirements for technological differentiation and uncertainty surrounding commercialization models. Companies need continuous investment in AI models, computing infrastructure, creative capabilities and copyright management systems. Maintaining content quality while achieving large-scale automated production remains a key challenge for long-term industry development.

Industry Chain Analysis

The AI Short Comic Drama industry chain covers upstream AI technology infrastructure, midstream content production platforms and downstream distribution and commercialization channels. The upstream segment includes large language models, image generation models, video generation models, speech synthesis technologies, cloud computing infrastructure, AI chips and data resources that provide technological

+357 96 030922
info@marketpublishers.com

foundations for content generation. The midstream segment consists of AI content creation platforms, animation production companies, IP developers and digital media companies that integrate AI tools into script creation, visual production, voice generation and post-production workflows. The downstream segment includes short video platforms, streaming platforms, online literature platforms, advertising channels and overseas digital entertainment markets. Value creation is achieved through reducing production costs, improving content supply efficiency and accelerating IP commercialization.Value Chain Analysis

The value chain of AI Short Comic Drama is increasingly centered on AI capability integration and content ecosystem development. AI model providers contribute core generation capabilities, while creative platforms transform these technologies into practical production workflows. Content owners and IP companies provide storytelling resources and commercialization opportunities, while distribution platforms determine audience reach, monetization efficiency and market expansion. Companies with strong AI infrastructure, proprietary content libraries and platform distribution capabilities are expected to achieve stronger competitive advantages.

Segment Insights

By product type, AI Short Comic Drama can be divided into 2D and 3D formats. 2D AI Short Comic Drama currently represents the dominant segment because it requires relatively lower computational resources, has shorter production cycles and is easier to adapt from existing comics and literature IP. 3D AI Short Comic Drama offers higher visual immersion and greater potential for virtual character development, gaming integration and premium entertainment applications, but faces higher technical requirements in modeling, rendering and motion consistency.

By AI involvement level, the market can be categorized into AI Semi-Automatic Short Drama Generation and AI Full-Process Short Drama Generation. AI semi-automatic production currently has wider commercial adoption because human creators remain involved in script refinement, artistic direction and quality control. AI full-process generation represents a future development direction, aiming to achieve automated creation from concept generation to final video output.

Downstream Market Opportunities

AI Short Comic Drama is primarily applied in digital entertainment, commercial

+357 96 030922
info@marketpublishers.com

marketing and education & training markets. Entertainment represents the largest application field, driven by demand from short video platforms, online fiction adaptation and digital IP development. Commercial marketing applications are expanding as brands use AI-generated animated stories for advertising campaigns, product promotion and customer engagement. Education and training applications are emerging through AI-generated instructional animations, personalized learning content and interactive educational materials.

Regional Insights

China represents one of the most developed markets for AI Short Comic Drama due to its large mobile video user base, strong online literature ecosystem and active generative AI industry. Domestic technology companies, content platforms and AI startups are accelerating commercialization through integration of AI production tools with digital entertainment platforms.

North America and Europe are important innovation regions, focusing on AI creative tools, enterprise content generation and global digital media applications. The United States has strong advantages in AI model development and technology infrastructure, while European markets emphasize digital content regulation, creative industries and responsible AI development. Japan and South Korea also demonstrate growth potential through their mature animation, gaming and entertainment industries.

Competitive Landscape Analysis

The AI Short Comic Drama market is characterized by competition among digital content platforms, AI technology providers, animation companies and IP ecosystem participants. Leading companies are building competitive advantages through AI generation capabilities, content resources, platform traffic and commercialization channels. Chinese companies such as Kuaishou Technology, China Literature and Kunlun Tech are leveraging strong digital content ecosystems to explore AI-driven entertainment production. International AI entertainment platforms such as Vigloo and Dashverse represent emerging participants focusing on AI-generated short-form storytelling. Specialized AI content creation companies including Beijing Xinghe Comic Creation Technology Co., Ltd., Beijing Xinggui Infinite Technology Co., Ltd., Beijing Lingdong Creative Technology Co., Ltd. and related AI creative enterprises are contributing to the development of automated animation production technologies. Future

+357 96 030922
info@marketpublishers.com

competition will increasingly depend on AI model performance, proprietary IP resources, production efficiency and global distribution capabilities.

Report Scope

This report is a detailed and comprehensive analysis for global AI Short Comic Drama market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global AI Short Comic Drama market size and forecasts, in consumption value ($ Million), 2021-2032

Global AI Short Comic Drama market size and forecasts by region and country, in consumption value ($ Million), 2021-2032

Global AI Short Comic Drama market size and forecasts, by Type and by Application, in consumption value ($ Million), 2021-2032

Global AI Short Comic Drama market shares of main players, in revenue ($ Million), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for AI Short Comic Drama

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

+357 96 030922
info@marketpublishers.com

This report profiles key players in the global AI Short Comic Drama market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Vigloo, Dashverse, Bona Film Group, Kuaishou Technology, China Literature, Kunlun Tech, Guomai Culture, Xinmei Jiutian Group, Xuanjia Technology, Beijing Lingdian Culture Media Co., Ltd., etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

AI Short Comic Drama market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by regions, regional analysis covers

North America (United States, Canada and Mexico)

Europe (Germany, France, UK, Russia, Italy and Rest of Europe)

Asia-Pacific (China, Japan, South Korea, India, Southeast Asia and Rest of Asia-Pacific)

South America (Brazil, Rest of South America)

Middle East & Africa (Turkey, Saudi Arabia, UAE, Rest of Middle East & Africa)

Chapter Outline

Chapter 1, to describe AI Short Comic Drama product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top players of AI Short Comic Drama, with revenue, gross margin, and global market share of AI Short Comic Drama from 2021 to 2026.

Chapter 3, the AI Short Comic Drama competitive situation, revenue, and global market share of top players are analyzed emphatically by landscape contrast.

Chapter 4 and 5, to segment the market size by Type and by Application, with consumption value and growth rate by Type, by Application, from 2021 to 2032.

Chapter 6, 7, 8, 9, and 10, to break the market size data at the country level, with

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope
1.2 Market Estimation Caveats and Base Year
1.3 Classification of AI Short Comic Drama by Type
  1.3.1 Overview: Global AI Short Comic Drama Market Size by Type: 2021 Versus 2025 Versus 2032
  1.3.2 Global AI Short Comic Drama Consumption Value Market Share by Type in 2025
  1.3.3 2D
  1.3.4 3D
1.4 Classification of AI Short Comic Drama by AI Involvement Level
  1.4.1 Overview: Global AI Short Comic Drama Market Size by AI Involvement Level: 2021 Versus 2025 Versus 2032
  1.4.2 Global AI Short Comic Drama Consumption Value Market Share by AI Involvement Level in 2025
  1.4.3 AI Semi-Automatic Short Drama Generation
  1.4.4 AI Full-Process Short Drama Generation
1.5 Global AI Short Comic Drama Market by Application
  1.5.1 Overview: Global AI Short Comic Drama Market Size by Application: 2021 Versus 2025 Versus 2032
  1.5.2 Entertainment
  1.5.3 Commercial Marketing
  1.5.4 Education & Training
  1.5.5 Other
1.6 Global AI Short Comic Drama Market Size & Forecast
1.7 Global AI Short Comic Drama Market Size and Forecast by Region
  1.7.1 Global AI Short Comic Drama Market Size by Region: 2021 VS 2025 VS 2032
  1.7.2 Global AI Short Comic Drama Market Size by Region, (2021-2032)
  1.7.3 North America AI Short Comic Drama Market Size and Prospect (2021-2032)
  1.7.4 Europe AI Short Comic Drama Market Size and Prospect (2021-2032)
  1.7.5 Asia-Pacific AI Short Comic Drama Market Size and Prospect (2021-2032)
  1.7.6 South America AI Short Comic Drama Market Size and Prospect (2021-2032)
