Abstracts

The global AI Short Drama Platform market size is expected to reach \$ 2980 million by 2032, rising at a market growth of 12.7% CAGR during the forecast period (2026-2032).

An AI short drama platform refers to a digital platform based on artificial intelligence technology that provides distribution, playback, and interactive viewing of short drama content. It not only supports online playback of short animated episodes (typically 1-5 minutes), but also combines AI recommendation algorithms to provide personalized content recommendations, comments, favorites, sharing, and interactive storyline branches. Some platforms integrate with AI creation tools or generative content platforms to achieve a closed loop from content creation and automatic generation to publication and distribution. Its core objective is to provide viewers with a fragmented, high-frequency, and personalized short drama viewing experience, while providing creators and businesses with traffic analysis, user insights, and monetization support.

The market prospects for AI short drama platforms are broad. On the one hand, the global demand for high-frequency, fragmented, and highly interactive content from short video users and young people continues to grow, making playback platforms an important entry point for content consumption. On the other hand, the development of generative AI technology, cloud rendering, multimodal animation, and personalized recommendation technology enables creators to quickly generate high-quality short drama content, increasing content supply. In the future, these platforms will not only serve the entertainment market, but will also play an important role in brand marketing, education and training, virtual idols and social interaction, realizing an ecological closed loop of content creation, distribution and commercialization, and promoting the intelligent and automated development of the global short video and digital animation industry.

This report studies the global AI Short Drama Platform demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for AI Short Drama Platform, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of AI Short Drama Platform that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global AI Short Drama Platform total market, 2021-2032, (USD Million)

Global AI Short Drama Platform total market by region & country, CAGR, 2021-2032, (USD Million)

U.S. VS China: AI Short Drama Platform total market, key domestic companies, and share, (USD Million)

Global AI Short Drama Platform revenue by player, revenue and market share 2021-2026, (USD Million)

Global AI Short Drama Platform total market by Type, CAGR, 2021-2032, (USD Million)

Global AI Short Drama Platform total market by Application, CAGR, 2021-2032, (USD Million)

This report profiles major players in the global AI Short Drama Platform market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Hongguo, Tencent, iQIYI, Baidu, Youku, Bilibili, TikTok, Express Hand, Kunlun Tech, ByteDance, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the world AI Short Drama Platform market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$ Millions), by player, by regions, by Type, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and

2027-2032 as the forecast year.
