Abstracts

According to our (Global Info Research) latest study, the global AIDC Computing Power and Energy Storage market size was valued at US$ 3565 million in 2025 and is forecast to a readjusted size of US$ 9309 million by 2032 with a CAGR of 14.6% during review period.

AIDC Computing Power and Energy Storage refers to integrated energy storage solutions designed for artificial intelligence data centers with high-density computing loads. The market covers energy storage systems that support AI servers, GPU clusters, liquid cooling infrastructure and other critical data center facilities by providing reliable power backup, power quality management, peak load regulation and renewable energy integration. These systems typically consist of battery energy storage systems (BESS), uninterruptible power supply (UPS) storage, battery management systems (BMS), energy management systems (EMS), power conversion systems (PCS), thermal management systems and intelligent control platforms. The research scope focuses on energy storage technologies and solutions applied in AI-oriented data center power infrastructure, emphasizing high power density, rapid response capability, long-duration backup performance and coordinated operation with renewable energy and microgrid systems.

Market Insights

Key Findings

AI data centers are driving demand for high-power-density energy storage

+357 96 030922
info@marketpublishers.com

systems with millisecond-level response capability

Lithium-ion battery energy storage remains the dominant technology pathway for AIDC applications

Large-scale AI data centers increasingly adopt MWh-level energy storage configurations

North America represents a leading regional market driven by hyperscale AI infrastructure investment

AIDC energy storage suppliers combine power electronics, battery systems and intelligent energy management capabilities

Market Trends

The AIDC computing power and energy storage market is evolving from traditional backup power solutions toward integrated intelligent energy infrastructure. The rapid expansion of generative AI models, GPU clusters and high-performance computing facilities is increasing data center electricity consumption and creating demand for more flexible and reliable energy management systems. Future solutions will focus on higher energy density batteries, liquid-cooled energy storage systems, intelligent EMS platforms, renewable energy integration and microgrid coordination. The industry is also moving toward modularized energy storage architectures that enable faster deployment and scalable expansion for AI data center campuses.

Market Dynamics

Drivers

The primary growth drivers include rapid AI infrastructure expansion, increasing power consumption per data center rack, limitations in grid capacity expansion and the growing need for stable electricity supply. AI servers equipped with advanced GPUs require significantly higher power availability compared with traditional computing infrastructure, encouraging data center operators to deploy energy storage systems for backup power, peak load management and energy cost optimization. The increasing adoption of renewable energy also creates additional demand for storage solutions that

+357 96 030922
info@marketpublishers.com

improve power stability and energy utilization efficiency.

Restraints

Market development is constrained by high initial investment costs, battery degradation concerns, safety management requirements and the complexity of integrating energy storage systems with existing data center power architectures. Large-scale AIDC projects require strict reliability standards, advanced thermal management and comprehensive fire protection systems, increasing system complexity and deployment costs.

Opportunities

Future opportunities are concentrated in AI data center campuses, renewable-powered computing facilities, microgrid-based data centers and next-generation high-density power systems. The integration of artificial intelligence-based energy management software, advanced battery technologies and distributed energy resources will create new value-added opportunities. Suppliers capable of providing complete solutions covering batteries, power electronics, control systems and data center integration are expected to achieve stronger market competitiveness.

Challenges

The industry faces challenges related to technology standardization, supply chain stability, battery material price fluctuations and increasing competition among energy storage providers. In addition, the rapid evolution of AI hardware creates uncertainty regarding future power demand patterns, requiring suppliers to continuously improve system flexibility and scalability.

Industry Chain Analysis

The AIDC computing power and energy storage industry chain consists of upstream energy materials and components, midstream system integration and downstream AI infrastructure applications. The upstream segment includes battery cells, cathode materials, anode materials, electrolytes, power semiconductor components, thermal management components and control hardware. The midstream segment includes

+357 96 030922
info@marketpublishers.com

battery energy storage manufacturers, UPS suppliers, PCS manufacturers, EMS developers and integrated energy solution providers that combine hardware and software into complete AIDC power solutions. The downstream segment includes hyperscale cloud providers, AI computing centers, enterprise data centers and high-performance computing facilities. Value creation is mainly achieved through improvements in energy density, reliability, intelligent control capability and system integration efficiency.Value Chain Analysis

The value chain of AIDC energy storage is increasingly shifting toward integrated solutions combining battery technology, power conversion, energy management software and data center operational optimization. Companies with strong capabilities in battery manufacturing, power electronics, digital energy platforms and large-scale project deployment are positioned to capture higher-value segments. The future competitive advantage will depend on comprehensive solution capability rather than individual hardware supply.

Segment Insights

Lithium-ion battery energy storage currently represents the largest technology segment due to its mature supply chain, high energy density, long cycle life and strong commercial availability. Within lithium-ion solutions, lithium iron phosphate-based systems are increasingly preferred for large-scale data center applications because of their safety characteristics and lifecycle advantages. In terms of system scale, medium-scale and large-scale energy storage systems represent important growth areas as AI data centers require increasingly higher backup capacity and power management capability. Application demand is gradually expanding from traditional backup energy storage toward peak shaving, renewable energy coordination and intelligent energy optimization.

Downstream Market Opportunities

The downstream opportunity landscape is centered on AI data centers, cloud computing facilities, enterprise computing infrastructure and emerging AI industrial parks. Large-scale AI training clusters require stable and continuous power supply, creating demand for advanced storage systems that improve resilience and reduce operational costs. Future adoption will increasingly focus on integrated solutions combining energy storage, renewable power generation, intelligent monitoring and automated energy management.

+357 96 030922
info@marketpublishers.com

Regional Insights

North America is one of the leading regional markets due to strong investment in AI infrastructure, hyperscale cloud computing expansion and advanced data center development. The region demonstrates strong demand for high-reliability energy storage solutions integrated with advanced power management systems. Asia-Pacific is experiencing rapid growth driven by AI infrastructure expansion, semiconductor ecosystem development and increasing data center construction. China represents a significant growth market supported by domestic AI development, renewable energy deployment and energy storage manufacturing capabilities. Europe is focusing on sustainable data center development and renewable energy integration, creating additional opportunities for advanced energy storage systems.

Competitive Landscape Analysis

The competitive landscape includes data center power infrastructure companies, battery energy storage manufacturers, renewable energy solution providers and digital energy technology companies. Leading participants compete through technological capabilities, system reliability, global deployment experience and integrated solution offerings. Data center power specialists focus on UPS, power management and infrastructure integration, while battery and energy storage companies leverage manufacturing scale and battery technology advantages. Future competition will increasingly center on intelligent energy management, high-density storage technologies and the ability to provide complete AIDC energy infrastructure solutions.

Report Scope

This report is a detailed and comprehensive analysis for global AIDC Computing Power and Energy Storage market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

+357 96 030922
info@marketpublishers.com

Key Features:

Global AIDC Computing Power and Energy Storage market size and forecasts, in consumption value ($ Million), 2021-2032

Global AIDC Computing Power and Energy Storage market size and forecasts by region and country, in consumption value ($ Million), 2021-2032

Global AIDC Computing Power and Energy Storage market size and forecasts, by Type and by Application, in consumption value ($ Million), 2021-2032

Global AIDC Computing Power and Energy Storage market shares of main players, in revenue ($ Million), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for AIDC Computing Power and Energy Storage

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global AIDC Computing Power and Energy Storage market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Vertiv, Schneider Electric, Tesla, Eaton, Fluence, ABB, Delta Electronics, Sunwoda, Huawei, CATL, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

AIDC Computing Power and Energy Storage market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can

+357 96 030922
info@marketpublishers.com

help you expand your business by targeting qualified niche markets.

Market segmentation

Market segment by Type

Lithium-Ion Battery Energy Storage

Sodium-Ion Battery Energy Storage

Flow Battery Energy Storage

Market segment by System Scale

Small-Scale Energy Storage (<1 MWh)

Medium-Scale Energy Storage (1–20 MWh)

Large-Scale Energy Storage (20–100 MWh)

Ultra-Large-Scale Energy Storage (>100 MWh)

Market segment by Application

Backup Energy Storage

Peak Shaving And Valley Filling

Others

Market segment by players, this report covers

Vertiv

Chapter Outline

Chapter 1, to describe AIDC Computing Power and Energy Storage product scope, market overview, market estimation caveats and base year.
Chapter 2, to profile the top players of AIDC Computing Power and Energy Storage, with revenue, gross margin, and global market share of AIDC Computing Power and Energy Storage from 2021 to 2026.
Chapter 3, the AIDC Computing Power and Energy Storage competitive situation, revenue, and global market share of top players are analyzed emphatically by landscape contrast.
Chapter 4 and 5, to segment the market size by Type and by Application, with consumption value and growth rate by Type, by Application, from 2021 to 2032.
Chapter 6, 7, 8, 9, and 10, to break the market size data at the country level, with revenue and market share for key countries in the world, from 2021 to 2026.and AIDC Computing Power and Energy Storage market forecast, by regions, by Type and by Application, with consumption value, from 2027 to 2032.
Chapter 11, market dynamics, drivers, restraints, trends, Porters Five Forces analysis.
Chapter 12, the key raw materials and key suppliers, and industry chain of AIDC Computing Power and Energy Storage.
Chapter 13, to describe AIDC Computing Power and Energy Storage research findings and conclusion.

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope
1.2 Market Estimation Caveats and Base Year
1.3 Classification of AIDC Computing Power and Energy Storage by Type
  1.3.1 Overview: Global AIDC Computing Power and Energy Storage Market Size by Type: 2021 Versus 2025 Versus 2032
  1.3.2 Global AIDC Computing Power and Energy Storage Consumption Value Market Share by Type in 2025
  1.3.3 Lithium-Ion Battery Energy Storage
  1.3.4 Sodium-Ion Battery Energy Storage
  1.3.5 Flow Battery Energy Storage
1.4 Classification of AIDC Computing Power and Energy Storage by System Scale
  1.4.1 Overview: Global AIDC Computing Power and Energy Storage Market Size by System Scale: 2021 Versus 2025 Versus 2032
  1.4.2 Global AIDC Computing Power and Energy Storage Consumption Value Market Share by System Scale in 2025
  1.4.3 Small-Scale Energy Storage (<1 MWh)
  1.4.4 Medium-Scale Energy Storage (1–20 MWh)
  1.4.5 Large-Scale Energy Storage (20–100 MWh)
  1.4.6 Ultra-Large-Scale Energy Storage (>100 MWh)
1.5 Global AIDC Computing Power and Energy Storage Market by Application
  1.5.1 Overview: Global AIDC Computing Power and Energy Storage Market Size by Application: 2021 Versus 2025 Versus 2032
  1.5.2 Backup Energy Storage
  1.5.3 Peak Shaving And Valley Filling
  1.5.4 Others
1.6 Global AIDC Computing Power and Energy Storage Market Size & Forecast
1.7 Global AIDC Computing Power and Energy Storage Market Size and Forecast by Region
  1.7.1 Global AIDC Computing Power and Energy Storage Market Size by Region: 2021 VS 2025 VS 2032
  1.7.2 Global AIDC Computing Power and Energy Storage Market Size by Region, (2021-2032)
  1.7.3 North America AIDC Computing Power and Energy Storage Market Size and Prospect (2021-2032)
  1.7.4 Europe AIDC Computing Power and Energy Storage Market Size and Prospect

+357 96 030922
info@marketpublishers.com

(2021-2032)
1.7.5 Asia-Pacific AIDC Computing Power and Energy Storage Market Size and Prospect (2021-2032)
1.7.6 South America AIDC Computing Power and Energy Storage Market Size and Prospect (2021-2032)
1.7.7 Middle East & Africa AIDC Computing Power and Energy Storage Market Size and Prospect (2021-2032)

2 COMPANY PROFILES

2.1 Vertiv
2.1.1 Vertiv Details
2.1.2 Vertiv Major Business
2.1.3 Vertiv AIDC Computing Power and Energy Storage Product and Solutions
2.1.4 Vertiv AIDC Computing Power and Energy Storage Revenue, Gross Margin and Market Share (2021-2026)
2.1.5 Vertiv Recent Developments and Future Plans
2.2 Schneider Electric
2.2.1 Schneider Electric Details
2.2.2 Schneider Electric Major Business
2.2.3 Schneider Electric AIDC Computing Power and Energy Storage Product and Solutions
2.2.4 Schneider Electric AIDC Computing Power and Energy Storage Revenue, Gross Margin and Market Share (2021-2026)
2.2.5 Schneider Electric Recent Developments and Future Plans
2.3 Tesla
2.3.1 Tesla Details
2.3.2 Tesla Major Business
2.3.3 Tesla AIDC Computing Power and Energy Storage Product and Solutions
2.3.4 Tesla AIDC Computing Power and Energy Storage Revenue, Gross Margin and Market Share (2021-2026)
2.3.5 Tesla Recent Developments and Future Plans
2.4 Eaton
2.4.1 Eaton Details
2.4.2 Eaton Major Business
2.4.3 Eaton AIDC Computing Power and Energy Storage Product and Solutions
2.4.4 Eaton AIDC Computing Power and Energy Storage Revenue, Gross Margin and Market Share (2021-2026)
2.4.5 Eaton Recent Developments and Future Plans

+357 96 030922
info@marketpublishers.com

2.5 Fluence
2.5.1 Fluence Details
2.5.2 Fluence Major Business
2.5.3 Fluence AIDC Computing Power and Energy Storage Product and Solutions
2.5.4 Fluence AIDC Computing Power and Energy Storage Revenue, Gross Margin and Market Share (2021-2026)
2.5.5 Fluence Recent Developments and Future Plans
2.6 ABB
2.6.1 ABB Details
2.6.2 ABB Major Business
2.6.3 ABB AIDC Computing Power and Energy Storage Product and Solutions
2.6.4 ABB AIDC Computing Power and Energy Storage Revenue, Gross Margin and Market Share (2021-2026)
2.6.5 ABB Recent Developments and Future Plans
2.7 Delta Electronics
2.7.1 Delta Electronics Details
2.7.2 Delta Electronics Major Business
2.7.3 Delta Electronics AIDC Computing Power and Energy Storage Product and Solutions
2.7.4 Delta Electronics AIDC Computing Power and Energy Storage Revenue, Gross Margin and Market Share (2021-2026)
2.7.5 Delta Electronics Recent Developments and Future Plans
2.8 Sunwoda
2.8.1 Sunwoda Details
2.8.2 Sunwoda Major Business
2.8.3 Sunwoda AIDC Computing Power and Energy Storage Product and Solutions
2.8.4 Sunwoda AIDC Computing Power and Energy Storage Revenue, Gross Margin and Market Share (2021-2026)
2.8.5 Sunwoda Recent Developments and Future Plans
2.9 Huawei
2.9.1 Huawei Details
2.9.2 Huawei Major Business
2.9.3 Huawei AIDC Computing Power and Energy Storage Product and Solutions
2.9.4 Huawei AIDC Computing Power and Energy Storage Revenue, Gross Margin and Market Share (2021-2026)
2.9.5 Huawei Recent Developments and Future Plans
2.10 CATL
2.10.1 CATL Details
2.10.2 CATL Major Business

+357 96 030922
info@marketpublishers.com

2.10.3 CATL AIDC Computing Power and Energy Storage Product and Solutions
2.10.4 CATL AIDC Computing Power and Energy Storage Revenue, Gross Margin and Market Share (2021-2026)
2.10.5 CATL Recent Developments and Future Plans
2.11 Sungrow
2.11.1 Sungrow Details
2.11.2 Sungrow Major Business
2.11.3 Sungrow AIDC Computing Power and Energy Storage Product and Solutions
2.11.4 Sungrow AIDC Computing Power and Energy Storage Revenue, Gross Margin and Market Share (2021-2026)
2.11.5 Sungrow Recent Developments and Future Plans
2.12 SVOLT
2.12.1 SVOLT Details
2.12.2 SVOLT Major Business
2.12.3 SVOLT AIDC Computing Power and Energy Storage Product and Solutions
2.12.4 SVOLT AIDC Computing Power and Energy Storage Revenue, Gross Margin and Market Share (2021-2026)
2.12.5 SVOLT Recent Developments and Future Plans
2.13 HiTHIUM
2.13.1 HiTHIUM Details
2.13.2 HiTHIUM Major Business
2.13.3 HiTHIUM AIDC Computing Power and Energy Storage Product and Solutions
2.13.4 HiTHIUM AIDC Computing Power and Energy Storage Revenue, Gross Margin and Market Share (2021-2026)
2.13.5 HiTHIUM Recent Developments and Future Plans

3 MARKET COMPETITION, BY PLAYERS

3.1 Global AIDC Computing Power and Energy Storage Revenue and Share by Players (2021-2026)
3.2 Market Share Analysis (2025)
3.2.1 Market Share of AIDC Computing Power and Energy Storage by Company Revenue
3.2.2 Top 3 AIDC Computing Power and Energy Storage Players Market Share in 2025
3.2.3 Top 6 AIDC Computing Power and Energy Storage Players Market Share in 2025
3.3 AIDC Computing Power and Energy Storage Market: Overall Company Footprint Analysis

+357 96 030922
info@marketpublishers.com

3.3.1 AIDC Computing Power and Energy Storage Market: Region Footprint
3.3.2 AIDC Computing Power and Energy Storage Market: Company Product Type Footprint
3.3.3 AIDC Computing Power and Energy Storage Market: Company Product Application Footprint
3.4 New Market Entrants and Barriers to Market Entry
3.5 Mergers, Acquisition, Agreements, and Collaborations

4 MARKET SIZE SEGMENT BY TYPE

4.1 Global AIDC Computing Power and Energy Storage Consumption Value and Market Share by Type (2021-2026)
4.2 Global AIDC Computing Power and Energy Storage Market Forecast by Type (2027-2032)

5 MARKET SIZE SEGMENT BY APPLICATION

5.1 Global AIDC Computing Power and Energy Storage Consumption Value Market Share by Application (2021-2026)
5.2 Global AIDC Computing Power and Energy Storage Market Forecast by Application (2027-2032)

6 NORTH AMERICA

6.1 North America AIDC Computing Power and Energy Storage Consumption Value by Type (2021-2032)
6.2 North America AIDC Computing Power and Energy Storage Market Size by Application (2021-2032)
6.3 North America AIDC Computing Power and Energy Storage Market Size by Country
6.3.1 North America AIDC Computing Power and Energy Storage Consumption Value by Country (2021-2032)
6.3.2 United States AIDC Computing Power and Energy Storage Market Size and Forecast (2021-2032)
6.3.3 Canada AIDC Computing Power and Energy Storage Market Size and Forecast (2021-2032)
6.3.4 Mexico AIDC Computing Power and Energy Storage Market Size and Forecast (2021-2032)

7 EUROPE

+357 96 030922
info@marketpublishers.com

7.1 Europe AIDC Computing Power and Energy Storage Consumption Value by Type (2021-2032)
7.2 Europe AIDC Computing Power and Energy Storage Consumption Value by Application (2021-2032)
7.3 Europe AIDC Computing Power and Energy Storage Market Size by Country
7.3.1 Europe AIDC Computing Power and Energy Storage Consumption Value by Country (2021-2032)
7.3.2 Germany AIDC Computing Power and Energy Storage Market Size and Forecast (2021-2032)
7.3.3 France AIDC Computing Power and Energy Storage Market Size and Forecast (2021-2032)
7.3.4 United Kingdom AIDC Computing Power and Energy Storage Market Size and Forecast (2021-2032)
7.3.5 Russia AIDC Computing Power and Energy Storage Market Size and Forecast (2021-2032)
7.3.6 Italy AIDC Computing Power and Energy Storage Market Size and Forecast (2021-2032)

8 ASIA-PACIFIC

8.1 Asia-Pacific AIDC Computing Power and Energy Storage Consumption Value by Type (2021-2032)
8.2 Asia-Pacific AIDC Computing Power and Energy Storage Consumption Value by Application (2021-2032)
8.3 Asia-Pacific AIDC Computing Power and Energy Storage Market Size by Region
8.3.1 Asia-Pacific AIDC Computing Power and Energy Storage Consumption Value by Region (2021-2032)
8.3.2 China AIDC Computing Power and Energy Storage Market Size and Forecast (2021-2032)
8.3.3 Japan AIDC Computing Power and Energy Storage Market Size and Forecast (2021-2032)
8.3.4 South Korea AIDC Computing Power and Energy Storage Market Size and Forecast (2021-2032)
8.3.5 India AIDC Computing Power and Energy Storage Market Size and Forecast (2021-2032)
8.3.6 Southeast Asia AIDC Computing Power and Energy Storage Market Size and Forecast (2021-2032)

I would like to order

Product name: Global AIDC Computing Power and Energy Storage Market 2026 by Company, Regions, Type and Application, Forecast to 2032

Product link: https://marketpublishers.com/r/G363F3BDAC6BEN.html

Price: US$ 3,480.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page https://marketpublishers.com/r/G363F3BDAC6BEN.html
