Abstracts

According to our (Global Info Research) latest study, the global AIGC Media market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

AIGC means using artificial intelligence technology to generate content, such as AI painting, AI writing, etc. It is considered a new type of content production method after UGC (user-generated content) and PGC (professional-generated content). AIGC had a great development in 2022, mainly thanks to the improvement of deep learning models, the promotion of open source mode and the exploration of commercialization of large models.
