## Abstracts

The global Airport City Consulting and Services market size is expected to reach \$ 19664 million by 2032, rising at a market growth of 6.8% CAGR during the forecast period (2026-2032).

Airport city consulting and services encompass integrated consulting and delivery services for 'Airport City/Aerotropolis' integrated development, including planning, investment and financing, industrial layout, transportation and logistics systems, business and asset operation, and digital and sustainable solutions. It addresses issues such as information fragmentation, difficulties in cross-stakeholder coordination, long commissioning cycles, and uncontrollable risks by transforming airports from simple transportation facilities into comprehensive hubs driving regional economic development and industrial clusters.

This report studies the global Airport City Consulting and Services demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Airport City Consulting and Services, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Airport City Consulting and Services that contribute to its increasing demand across many markets.
