Abstracts

Airside services comprise services available at the airport in order to support on-time flight arrival and departure. These services include ramp handling, fuel & oil handling, baggage handling, aircraft maintenance, and various other services.

Scope of the Report:

This report focuses on the Airside Services in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. North America is expected to emerge as a prominent regional market owing to high technological penetration, stringent norms pertaining to air travel and perennially increasing air traffic. Order backlogs of business jets & commercial aircrafts and airport expansion have spurred the airside services market demand in the Middle East. Middle East airside services industry is predominantly monopolistic which are expected to cause imbalances in the future demand and supply. Asia Pacific region is also expected to show a significant growth owing to the growing economic development and increasing air passenger traffic in the region.

The worldwide market for Airside Services is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
