AIT (Advanced Intelligent Tape) tape library is a storage device based on advanced intelligent tape technology. AIT stands for Advanced Intelligent Tape. This technology has advanced technical features such as spiral scanning and metal evaporation tape, which makes AIT tapes perform well in data protection. These technical features enable AIT tape libraries to provide efficient and reliable data storage solutions. AIT tape libraries usually contain one or more tape drives, multiple slots, a barcode reader, and an automatic robotic arm for loading tapes. This design enables the tape library to realize automatic backup and data recovery functions, greatly improving storage efficiency. The tape library can automatically complete operations such as tape removal, loading, data backup and recovery, reducing dependence on manual labor and improving the automation level of the system.
