All-in-one toner cartridge? refers to a toner cartridge in which the ?photosensitive drum and powder cartridge and powder bin? are integrated into one. The design of this toner cartridge makes the toner cartridge and photosensitive drum tightly integrated and cannot be separated. When the toner is used up, the photosensitive drum is also replaced; when the photosensitive drum life is exhausted, the toner cartridge is also replaced. The design of the integrated toner cartridge means that all components cannot be replaced individually, which simplifies the replacement process to a certain extent.
