## Abstracts

According to our (Global Info Research) latest study, the global Amino Acid Surfactants market size was valued at USD 749.4 million in 2023 and is forecast to a readjusted size of USD 1594.3 million by 2030 with a CAGR of 11.4% during review period.

Surfactants are chemical products consumed in large quantities every day on a worldwide scale. The development of less irritant, less toxic, consumer-friendly surfactants is, therefore, of general interest. Amino-acid-based surfactants constitute a novel class of surfactants produced from renewable raw materials and can be seen as an alternative to conventional surfactants.

In the report, we cover amino acid surfactants data by actual data instead of concentration conversion. Since amino acid surfactants have too many product forms and types, it may not be appropriate to convert by 30% solution or 100% active ingredient. Most amino acid surfactants solution has an active ingredient of 30-50%, and solid amino acid surfactants typically have an active ingredient of over 95%.

Global Amino Acid-based Surfactants main manufacturers include Ajinomoto, Sino Lion and Changsha Puji, totally accounting for 30% of the market. China is the largest market, with a share over 58%. As for the types of products, it can be divided into glutamic acid based surfactant, glycine based surfactant sarcosine based surfactant, alanine based surfactant and others. The most common type is glycine based surfactant, with a share over 35%. In terms of application, it is widely used in facial cleaner, shower gel, shampoo and others. The most common application is facial cleaner, which accounts for 70% of all.

The Global Info Research report includes an overview of the development of the Amino Acid Surfactants industry chain, the market status of Facial Cleaner (Glutamicacid Based Surfactant, Glycine Based Surfactant), Shower Gel (Glutamicacid Based Surfactant, Glycine Based Surfactant), and key enterprises in developed and developing market, and analysed the cutting-edge technology, patent, hot applications and market trends of Amino Acid Surfactants.

Regionally, the report analyzes the Amino Acid Surfactants markets in key regions. North America and Europe are experiencing steady growth, driven by government initiatives and increasing consumer awareness. Asia-Pacific, particularly China, leads the global Amino Acid Surfactants market, with robust domestic demand, supportive policies, and a strong manufacturing base.
