Abstracts

The global Anime Figure Blind Box market size is expected to reach \$ 4232.3 million by 2029, rising at a market growth of 4.3% CAGR during the forecast period (2023-2029).

Since there is no label on the box, consumers will only know the product in the draw after purchasing and opening it, so it is named blind box. This uncertain stimulus makes the blind box attractive and has become a hot topic in social communication among users. Therefore, the blind box has both surprise and social attributes. In addition, the blind box also has attributes such as spiritual comfort and collection. The blind box has so many attributes that it goes beyond the category of leisure toys, and the audience covers a wider range of ages. The channels for blind box sales mainly include online Taobao stores, offline branded toy shopping mall stores, robot stores, and specialized fashion goods sales stores. At present, there are few blind box brands in offline self-operated stores (only Bubble Mart has self-operated stores), self-operated channels are mainly operated through online Taobao studio stores, and offline channels also have special trendy toy sales supplies shop.

Consumers cannot know in advance the toy boxes of specific product styles
