Abstracts

The term 'application container,' which has several meanings in IT, has come to be used for a new type of technology that helps provide consistency and efficient design in the context of hardware virtualization.

SCOPE OF THE REPORT:

This report studies the Application Container market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Application Container market by product type and applications/end industries.
North America is estimated to account for the largest market share in 2018. North America is one of the early users of the application container technology. The technological adoption in this region is high. Moreover, this region comprises a dense startup ecosystem, and all the leading cloud service providers are from this region. Trends, such as microservices and DevOps are already in high demand in this region creating a favorable environment for the growth of the application container market. However, Asia Pacific (APAC) is expected to grow at the highest CAGR during the forecast period. Companies in this region are transforming their core business applications, which makes them responsive to business changes. From the private to public sectors, all are embracing the application container technology. For instance, in Singapore, the government’s digital services team at GoVTech has been using Nectar for building applications. Nectar stands for Next-generation Container Architecture and is a codename given to on-premises Platform-as-a-Service (PaaS). The emergence of DevOps is also expected to drive the growth of the application container market in this region.

The global Application Container market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.
The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.
North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of Application Container.
Europe also play important roles in global market, with market size of xx million USD in 2017 and will be xx million USD in 2023, with a CAGR of xx%.

Market Segment by Companies, this report covers
