## Abstracts

According to our (Global Info Research) latest study, the global Aquaculture Water Treatment Circulating Pump market size was valued at US\$ 642 million in 2025 and is forecast to a readjusted size of US\$ 1081 million by 2032 with a CAGR of 7.8% during review period.

Aquaculture water treatment circulating pumps are specialized pumps used in aquaculture systems to drive continuous water circulation. Their primary function is to transport aquaculture water to units such as filtration, biological treatment, disinfection, or aeration, and then return it to the aquaculture ponds. These circulating pumps typically emphasize high flow rates, low head, long-term continuous operation, and corrosion resistance to adapt to aquaculture water environments containing organic matter, suspended solids, and salinity. Aquaculture water treatment circulating pumps are core power equipment for the stable operation of recirculating aquaculture systems (RAS) and high-density aquaculture ponds; their operational stability directly affects water quality control, stocking density, and overall energy consumption. In 2025, sales were estimated at approximately 690,000 units, with an average selling price of approximately US\$850 per unit, total production capacity of 750,000 units, and a gross profit margin of 34%.

This report is a detailed and comprehensive analysis for global Aquaculture Water Treatment Circulating Pump market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with

market share estimates of some of the selected leaders for the year 2025, are provided.

### **Key Features:**

Global Aquaculture Water Treatment Circulating Pump market size and forecasts, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Aquaculture Water Treatment Circulating Pump market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Aquaculture Water Treatment Circulating Pump market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Aquaculture Water Treatment Circulating Pump market shares of main players, shipments in revenue (\$ Million), sales quantity (K Units), and ASP (US\$/Unit), 2021-2026

### **The Primary Objectives in This Report Are:**

- To determine the size of the total market opportunity of global and key countries
- To assess the growth potential for Aquaculture Water Treatment Circulating Pump
- To forecast future growth in each product and end-use market
- To assess competitive factors affecting the marketplace

This report profiles key players in the global Aquaculture Water Treatment Circulating Pump market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Fish Mate, Hozelock, Oase, Kockney Koi, Evolution Aqua, Argonide, Fluval, Haley Manufacturing, Pond Boss, Deepwater Koi Innovations, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

### **Market Segmentation**

Aquaculture Water Treatment Circulating Pump market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

#### Market segment by Type

Physical Filtration

Chemical Filtration

Biological Filtration

#### Market segment by Function

Circulation Pump

Filtration Pump

Aeration Pump

#### Market segment by Structure

Centrifugal Pump

Submersible Pump

Self-Priming Pump

#### Market segment by Application

Aquaculture

Aquarium

Private Fish Ponds

Others

#### Major players covered

Fish Mate

Hozelock

Oase

Kockney Koi

Evolution Aqua

Argonide

Fluval

Haley Manufacturing

Pond Boss

Deepwater Koi Innovations

Process Wastewater Technologies

Aqua Ultraviolet

Rena Aquatic Supply

Aquility Systems

Aquascape

Eco Plus

Hampton Roads Water Gardens

K&H Manufacturing

Danner Manufacturing

Atlantic Water Gardens

Market segment by region, regional analysis covers  
North America (United States, Canada, and Mexico)  
Europe (Germany, France, United Kingdom, Russia, Italy, and Rest of Europe)  
Asia-Pacific (China, Japan, Korea, India, Southeast Asia, and Australia)  
South America (Brazil, Argentina, Colombia, and Rest of South America)  
Middle East & Africa (Saudi Arabia, UAE, Egypt, South Africa, and Rest of Middle East & Africa)

**The content of the study subjects, includes a total of 15 chapters:**

Chapter 1, to describe Aquaculture Water Treatment Circulating Pump product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top manufacturers of Aquaculture Water Treatment Circulating Pump, with price, sales quantity, revenue, and global market share of Aquaculture Water Treatment Circulating Pump from 2021 to 2026.

Chapter 3, the Aquaculture Water Treatment Circulating Pump competitive situation, sales quantity, revenue, and global market share of top manufacturers are analyzed emphatically by landscape contrast.

Chapter 4, the Aquaculture Water Treatment Circulating Pump breakdown data are shown at the regional level, to show the sales quantity, consumption value, and growth by regions, from 2021 to 2032.

Chapter 5 and 6, to segment the sales by Type and by Application, with sales market share and growth rate by Type, by Application, from 2021 to 2032.

Chapter 7, 8, 9, 10 and 11, to break the sales data at the country level, with sales quantity, consumption value, and market share for key countries in the world, from 2021

to 2026.and Aquaculture Water Treatment Circulating Pump market forecast, by regions, by Type, and by Application, with sales and revenue, from 2027 to 2032.

Chapter 12, market dynamics, drivers, restraints, trends, and Porters Five Forces analysis.

Chapter 13, the key raw materials and key suppliers, and industry chain of Aquaculture Water Treatment Circulating Pump.

Chapter 14 and 15, to describe Aquaculture Water Treatment Circulating Pump sales channel, distributors, customers, research findings and conclusion.

## I would like to order

Product name: Global Aquaculture Water Treatment Circulating Pump Market 2026 by Manufacturers, Regions, Type and Application, Forecast to 2032

Product link: <https://marketpublishers.com/r/GF4D280B8A8CEN.html>

Price: US\$ 3,480.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/GF4D280B8A8CEN.html>
