Abstracts

Arabica coffee is a coffee plant native to Yemen and Ethiopia. The coffee beans produced by this plant are among the best in the world. Compared with coffee beans produced in South America, many people prefer the aroma and taste of this coffee bean. In addition, Arabica coffee beans contain relatively little caffeine. 'Freeze-dried coffee: also known as freeze-dried coffee, is the instant coffee made by freezing liquid products and removing the ice through sublimation. Freeze-dried coffee chips retain the original flavor of coffee.
