Abstracts

According to our (Global Info Research) latest study, the global Archery Compound Bow market size was valued at US$ 1286 million in 2025 and is forecast to a readjusted size of US$ 1989 million by 2032 with a CAGR of 6.3% during review period.

In 2025, global Archery Compound Bow production reached approximately 1.67 million pairs, with an average global market price of around USD 750 per pair.

The gross profit margin of major companies in the industry is between 30%–45%.

In 2025, the global production capacity of Archery Compound Bow was approximately 2.2 million pairs.

The archery compound bow is a modern mechanical bow that utilizes a lever system of cables and pulleys to bend the limbs, providing mechanical advantage and let-off. Its core functions include high-precision shooting, adjustable draw weight, and enhanced arrow velocity for hunting and competitive target archery. It is widely applied in outdoor sports, professional hunting, and international target competitions. Its product boundary covers multi-pulley compound bows and related modular setups, excluding traditional recurve and longbows.

The upstream of the industry chain includes aerospace-grade aluminum, carbon fiber, high-strength cables, and precision machining materials. The midstream involves riser manufacturing, limb fabrication, cam assembly, and tuning. The downstream encompasses specialized sporting goods stores, outdoor retail chains, e-commerce platforms, and end consumers such as hunters and archers.

Report Scope

This report is a detailed and comprehensive analysis for global Archery Compound Bow market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Archery Compound Bow market size and forecasts, in consumption value ($ Million), sales quantity (Pair), and average selling prices (US$/Pair), 2021-2032

Global Archery Compound Bow market size and forecasts by region and country, in consumption value ($ Million), sales quantity (Pair), and average selling prices (US$/Pair), 2021-2032

Global Archery Compound Bow market size and forecasts, by Type and by Application, in consumption value ($ Million), sales quantity (Pair), and average selling prices (US$/Pair), 2021-2032

Global Archery Compound Bow market shares of main players, shipments in revenue ($ Million), sales quantity (Pair), and ASP (US$/Pair), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Archery Compound Bow

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Archery Compound Bow market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Hoyt Archery, Mathews Archery, Bear Archery, PSE Archery, Elite Archery, Bowtech Archery, Prime Archery, Win & Win, Samick Sports, Xpedition Archery, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Archery Compound Bow market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.
