Abstracts

The global Augmentative and Alternative Communication Applications(AAC APPs) market size is expected to reach \$ 69 million by 2029, rising at a market growth of 9.3% CAGR during the forecast period (2023-2029).

AAC is a complete solution for anyone who has difficulty speaking. AAC is an app designed to support children, teenagers and adults who are unable to communicate verbally, with a particular focus on those who have aphasia, nonverbal autism, Parkinson's, cerebral palsy, ALS, stroke or other speech-language disorders. Users would benefit from this app as it will allow them to participate in real-time conversations with those around them when they are unable to use their voice.

This report studies the global Augmentative and Alternative Communication Applications(AAC APPs) demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Augmentative and Alternative Communication Applications(AAC APPs), and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2022 as the base year. This report explores demand trends and competition, as well as details the characteristics of Augmentative and Alternative Communication Applications(AAC APPs) that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Augmentative and Alternative Communication Applications(AAC APPs) total market, 2018-2029, (USD Million)

Global Augmentative and Alternative Communication Applications(AAC APPs) total market by region & country, CAGR, 2018-2029, (USD Million)

U.S. VS China: Augmentative and Alternative Communication Applications(AAC APPs) total market, key domestic companies and share, (USD Million)

Global Augmentative and Alternative Communication Applications(AAC APPs) revenue by player and market share 2018-2023, (USD Million)

Global Augmentative and Alternative Communication Applications(AAC APPs) total market by Type, CAGR, 2018-2029, (USD Million)

Global Augmentative and Alternative Communication Applications(AAC APPs) total market by Application, CAGR, 2018-2029, (USD Million)

This reports profiles major players in the global Augmentative and Alternative Communication Applications(AAC APPs) market based on the following parameters – company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Assistiveware BV(Proloquo2Go), APP2Speak, Speechify Inc, Cboard, Spectronics, Spoken, Lil Requester, TouchChat and Quick Talk, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals, COVID-19 and Russia-Ukraine War Influence.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World Augmentative and Alternative Communication Applications(AAC APPs) market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$ Millions), by player, by regions, by Type, and by Application. Data is given for the years 2018-2029 by year with 2022 as the base year, 2023 as the estimate year, and 2024-2029 as the forecast year.
