Abstracts

The subject of auto finance comprises the different financial products which allows someone to acquire a car with any arrangement other than a single lump payment. The provision of car finance by a third party supplier allows the acquirer to provide for and raise the funds to compensate the initial owner, either a dealer or manufacturer. Auto finance is required by both private individuals and businesses. All types of finance products are available to either sector, however the market share by finance type for each sector differs, partly because business contract hire can provide tax and cashflow benefits to businesses.
