According to our (Global Info Research) latest study, the global ATM Slide Rails market size was valued at USD million in 2023 and is forecast to a readjusted size of USD million by 2030 with a CAGR of % during review period.

As the banking industry is growing and there is an increase in demand to address the growing banking-related services and queries, ATMs provide an alternative for such branches. ATMs are a fast way to avail banking facilities and services beyond the normal working hours of a bank. Due to this ATMs are kept inside the bank, off the branch, and at specific locations where there is no requirement for a new branch, and ATM is sufficient to cater to the needs of end-users.

According to the report, the major driver for the ATM slide rails is the increase in demand for ATMs as an alternative to a bank branch.
