## **Abstracts**

According to our (Global Info Research) latest study, the global Automotive Connectors market size was valued at US\$ 22270 million in 2024 and is forecast to a readjusted size of USD 33030 million by 2031 with a CAGR of 5.9% during review period.

Connectors are critical to today's cars. Without them, it would be nearly impossible to build or service a car. Whenever a bundle of wires passes through or attaches to a component of the car that might have to be removed, there must be a connector there to allow for that removal. A single connector can have more than 100 wires.

Europe is the largest consumption market with market share over 28%. Followed Europe, North America is the second largest market with share about 24%.
